

Engineers meet our budding Year 6 Engineers

Two professional engineers came to talk to Year 6 about what they do and the interesting projects they had worked on. They also watched the children make bridge structures with their bodies. This helped them to feel the two forces of tension and compression that engineers use when building strong structures.

Parents are reminded that the school will be closed on the following dates:

Thursday 3 May 2018—Polling Day

Monday 7 May—Bank Holiday

Monday 28 May to Friday 1 June- Half Term Holidays

Goodbye Saturday School!

Saturday School has come to an end for this year. And what a year we had! We welcomed pupils from many different schools, including St Paul's Way Foundation for the first time. Our highlights last term were: learning to ice-skate, cooking pancakes on the bonfire with Kay from Stebon, team building at McMillan House, experimenting with dry ice with Ben from Bygrove, messy art and animating, as well as singing and dancing with our Saturday School tutors and of course cooking lunch every week! We will be back in September, so look out for the registration forms at the end of the Summer term.
