Forest School trained Teaching Assistants

Two of our teaching assistants, Giulia and Vicky, went on Forest school training this week. They had a great time seeing how much they could help the children learn from their natural surroundings and can't wait to start working with small groups in the Autumn term.

Were you told stories by your grandparents? Did they speak the same language as you? Will you tell these stories to your own children? Are stories important for maintaining your mother tongue?

Stories from home is a launch event of short films created as part of the Bridging the Gap storytelling project. The project aims to promote heritage language use, as well as reconnect and increase cultural awareness across generations within the London Bangladeshi community. The series of short films were developed from intergenerational workshops with primary school children and their grandparents in Tower Hamlets, London.

In addition to the film screening, the event will include live story telling, an exhibit of photography and illustrations from the workshops, and an opportunity for you to share and document your stories.

Please, come dressed in colours of Spain (yellow and red) or in your Spanish themed outfit. Don't forget your passport!

You can bring some yummy food, too! Be creative and think of some healthy Spanish dishes!

Hasta luego!
