

Stebon Primary School Pupil Premium and Recovery Strategy Statement 2021-2024 (Year 2 of 3)

This statement details our use of pupil premium and recovery premium funding for the period 2021-2024.

The coming academic year (2022-23) is year 2 of a 3 year plan; this document sets out how we intend to spend the funding in 2022-23 to help improve the attainment of our disadvantaged pupils.

Also in this document is information relating to the impact of 2021-22's spending on the attainment, progress & wellbeing of disadvantaged pupils.

School overview

Detail	Data
School name	Stebon School
Number of pupils in school	719
Proportion (%) of pupil premium eligible pupils	46%
Academic years that our current pupil premium strategy plan covers	2021-2024
Date this statement was published	06.07.22
Date on which it will be reviewed	03.07.23
Statement authorised by	Jeremy Iver
Pupil premium lead	Emily Curtis
Governor/Trustee lead	Oliver Woodward

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£358,715
Recovery premium funding allocation this academic year	£37,555
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£396,270

Part A: Pupil premium strategy plan

Statement of intent

Our core purpose at LETTA is to combat social inequality by providing an excellent education for our pupils. We have high expectations of them irrespective of the challenges they face in life and the barriers to learning associated with these challenges.

The pandemic highlighted and exacerbated pre-existing inequality and vulnerability in our school community and the gap in achievement between disadvantaged pupils and others widened. The aim of our recovery and pupil premium strategy is to ensure that no child is left behind and that disadvantaged pupils catch up, keep up and achieve outcomes that are in line with other pupils nationally.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This approach will not only have a significant impact on closing the attainment gap for disadvantaged pupils, it will benefit all pupils at the same time.

There is a strong link in our schools between SEND and disadvantage which suggests that money spent on specialist learning support and interventions is well targeted. Similarly there is a higher incidence of child protection concerns amongst disadvantaged families so spending on services to support safeguarding is important.

We recognise that some pupils require a combination of strategies to have an impact on attainment and that a blanket, one-size-fits-all, approach does not go far enough to close the achievement gap. Our approach is rooted in robust diagnostic assessment and we look closely at the circumstances and needs of individual pupils and their families. There are many different causes of and reasons for family unemployment, the nature of which help us to define and design the right kinds of support.

Challenges

These are the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p>Vocabulary & oral language gap (EYFS starting points)</p> <p>Quality assurance activities indicate that disadvantaged pupils enter EYFS with underdeveloped language skills & a vocabulary deficit.</p>
2	<p>Reading</p> <p>Quality assurance activities & internal data suggests that the attainment gap between disadvantaged & non-disadvantaged pupils has widened in reading.</p>
3	<p>Maths</p> <p>Quality assurance activities & internal data suggests that the attainment gap between disadvantaged & non-disadvantaged pupils has widened in maths.</p>
4	<p>Mental & physical health & wellbeing</p> <p>Quality assurance activities indicate that the mental & physical health & wellbeing of disadvantaged pupils has been impacted by the pandemic to a greater extent than for other pupils. These findings are supported by national & local studies.</p> <p>Teacher referrals for support have markedly increased during the pandemic. 41 pupils (31 of whom are disadvantaged) currently require additional support with social and emotional needs, with 10 (4 of whom are disadvantaged) receiving small group interventions.</p>
5	<p>Safeguarding</p> <p>There has been a significant increase in safeguarding concerns being reported for disadvantaged pupils.</p>
6	<p>Attendance - PP & SEND</p> <p>Our attendance data for the 2 years prior to 2021 indicated attendance of disadvantaged pupils as between 0.2% and 1.5% lower than for non-disadvantaged pupils.</p> <p>7% - 9% of disadvantaged pupils had been 'persistently absent' compared to 5% - 8% of their peers during that period. Our assessments and observations indicate that absenteeism is negatively impacting disadvantaged pupils' progress.</p>

Intended outcomes

These are the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
<p>Vocabulary & oral language gap (EYFS starting points)</p> <p>Improved oral language skills and vocabulary among disadvantaged pupils</p>	<p>Quality assurance activities indicate significantly improved oral language among disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book looks and ongoing formative assessment.</p> <p>Disadvantaged pupils in EYFS make excellent progress from their starting points in communication & language.</p> <p>Attainment of disadvantaged pupils in KS1 is comparable to that of their 'other' peers.</p>
<p>Reading</p> <p>Improved reading attainment among disadvantaged pupils</p>	<p>KS2 reading outcomes for disadvantaged pupils in 2024/25 are at least in line with national figures.</p>
<p>Maths - gaps, fluency & reasoning</p> <p>Improved maths attainment for disadvantaged pupils</p>	<p>KS2 maths outcomes for disadvantaged pupils in 2024/25 are at least in line with national figures.</p>
<p>Mental & physical health & wellbeing</p> <p>To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils</p>	<p>Sustained high levels of wellbeing from 2024/25 demonstrated by:</p> <ul style="list-style-type: none"> • qualitative data from pupil discussions, pupil and parent surveys and teacher observations • a significant reduction in behaviour incidents • a significant increase in participation in enrichment activities, particularly among disadvantaged pupils
<p>Attendance - PP & SEND</p> <p>To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.</p>	<p>Sustained high attendance from 2024/25:</p> <ul style="list-style-type: none"> • the overall absence rate for all pupils is no more than 3%, and the attendance gap between disadvantaged pupils and their non-disadvantaged peers is reduced by 50%. • the percentage of all pupils who are persistently absent being below 6% and the figure among disadvantaged pupils being no more than 0.5% lower than their peers.

Activity in the coming academic year, 2022-23

This is how we intend to spend our pupil premium and recovery premium funding **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: **£198,135**

Activity	Evidence that supports this approach	Challenge addressed
<p>Whole school focus on best practice in the teaching of English, including early reading, through our trust-wide Education Development Plan</p> <p>Teaching staff undertake reading & research projects to develop practice in this area</p>	<p>Language and literacy provide us with the building blocks not just for academic success, but for fulfilling careers and rewarding lives. The EEF has focused considerable effort in this area – particularly for younger and for struggling readers.</p> <p>Language is especially important in the Early Years. We also know that a focus on language and literacy is especially important for pupils with English as an Additional Language.</p> <p>Early Literacy Approaches EEF</p> <p>Preparing for Literacy EEF</p> <p>Improving Literacy in KS1 EEF</p> <p>Improving Literacy in KS2 EEF</p>	1, 2, (3)
<p>Continuing to embed best practice developed in metacognition & self-regulation through our trust-wide Education Development Plan in 21-22</p>	<p>Metacognition and self-regulation EEF</p>	1, 2, 3
<p>Embedding approaches across the school that promote classroom discussion so that pupils are able to articulate key ideas, consolidate understanding and extend vocabulary.</p>	<p>There is a strong evidence base that suggests oral language interventions & activities such as high-quality classroom discussion are inexpensive to implement with high impacts on reading:</p> <p>Oral language interventions Toolkit Strand Education Endowment Foundation EEF</p>	1, 2, 3

<p>Embedding a DfE validated Systematic Synthetic Phonics programme to secure stronger phonics teaching for all pupils.</p>	<p>Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils:</p> <p>Phonics Toolkit Strand Education Endowment Foundation EEF</p>	<p>1, 2</p>
<p>Further development of maths provision in line with DfE and EEF guidance, using White Rose & the Maths Hub programmes such as Mastering Number</p> <p>Access Maths Hub resources and CPD (including Teaching for Mastery training).</p>	<p>The DfE non-statutory guidance has been produced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches:</p> <p>Maths guidance KS 1 and 2.pdf (publishing.service.gov.uk)</p> <p>The EEF guidance is based on a range of the best available evidence:</p> <p>Improving Mathematics in Key Stages 2 and 3</p> <p>Mastery learning EEF</p>	<p>3</p>

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: **£99,060**

Activity	Evidence that supports this approach	Challenge addressed
<p>Implement the NELI programme to improve language skills for disadvantaged pupils who have relatively low spoken language skills in the Early Years</p>	<p>The Nuffield Early Language Intervention (NELI) is a programme for children in Reception (4-5 years) which has been found to improve children's language and early literacy skills. Robust evaluations found NELI children made on average 3 months of additional progress in language.</p> <p>https://educationendowmentfoundation.org.uk/projects-and-evaluation/projects/oxford-university-nuffield-early-language-intervention-development-of-a-n-online-training-model</p>	<p>1, 2 & 4</p>

<p>Provision of high quality speech & language interventions supported by a qualified speech & language therapist</p>	<p>Evidence from the EEF toolkit on oral language interventions shows consistently positive effects of on average +5 months' additional progress over the course of a year. The impact tends to be greatest for younger children and those from disadvantaged backgrounds. A number of studies also show the impact of trained teaching assistants effectively supporting oral language skills and reading outcomes.</p>	<p>1, 2, 4, 5</p>
<p>Additional phonics sessions targeted at disadvantaged pupils who require further phonics support.</p>	<p>Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks: Phonics Toolkit Strand Education Endowment Foundation EEF</p>	<p>2 & 3</p>
<p>Continuing to engage with the National Tutoring Programme to provide tuition for pupils whose education has been most impacted by the pandemic, including in-school tutoring & academic mentors. A significant proportion of the pupils who receive tutoring will be disadvantaged.</p>	<p>Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one: One to one tuition EEF (educationendowmentfoundation.org.uk) And in small groups: Small group tuition Toolkit Strand Education Endowment Foundation EEF Mentoring EEF</p>	<p>2 & 3</p>

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: **£99,075**

Activity	Evidence that supports this approach	Challenge addressed
Continuing to engage a school-based social worker to provide support for struggling families through early help strategies	What Works for Children's Social Care - Social Workers in Schools - An Evaluation Parental engagement EEF	5, 6
Continuing to employ a family engagement worker and embedding principles of good practice set out in the DfE's Improving School Attendance advice.	<p>The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence.</p> <p>The average impact of the parental engagement approaches is about an additional four months' progress over the course of a year. There are also higher impacts for pupils with low prior attainment.</p> <p>Parental engagement EEF</p>	5, 6
Embedding our Health and Wellbeing Strategy	<p>Physical activity has important benefits in terms of health, wellbeing and physical development. These benefits have important value in themselves, however, the EEF Toolkit focuses on the benefits of physical activity for core academic attainment particularly literacy and mathematics.</p> <p>Physical activity EEF</p>	4

Total budgeted cost: £396,270

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

Our internal assessments during 2020/21 suggested that, in reading, writing and maths, the performance of disadvantaged pupils was lower than it had been prior to the pandemic and that the gap between disadvantaged pupils and other pupils in the school had widened.

Data from 2021/22 to date suggests that the attainment gap in reading, writing and maths is closing in Y5 & Y6. In Y2, there is a negligible attainment gap. This is partly because the correlation that exists in other year groups between disadvantage & SEND is not as present in Y2. In all other year groups, the gap has remained stable, not widened.

This document will be updated with 2021/22's end of key stage data as soon as it is available.

Pupils who have had access to individual & small group tutoring have made accelerated progress, particularly in Y5 & Y6. In many cases this has meant they are now working at and above age related expectations. This is as true of in-school interventions as of online, remote ones like White Rose maths tutoring.

Attendance of disadvantaged pupils in 2020/21 had been lower than in the year prior to the pandemic. It was, however, much higher than the national average for this group. Persistent absence for disadvantaged pupils was also higher than in previous years.

2021/22's attendance figures show an improvement in the attendance of disadvantaged pupils since last year. There is a negligible difference between the attendance of disadvantaged pupils & others. Both are above 94%; the national average for all pupils is just below 90%.

Persistent absence figures for disadvantaged pupils have remained around 17.5%. The most recent comparative data for all pupils nationally is 23.1% - from autumn 2021.

Our assessments and observations in 2020/21 had indicated that pupil behaviour, wellbeing and mental health were significantly impacted by

COVID-19-related issues. The impact was particularly acute for disadvantaged pupils. We used pupil premium funding to provide wellbeing support for all pupils, and targeted interventions where required.

It was not until the 2021/22 academic year that the full impact of Covid lockdowns and their contingent pressures on extremely vulnerable children and families began to unfold fully. Over the course of the year, we saw a large spike in child protection disclosures & referrals to children's social care.

As part of measures to support these pupils, we have engaged a play therapist, an additional learning mentor & an academic mentor & created a 'Reflect & Refocus Room' where pupils are supported to self-regulate by a member of staff.

Behaviour & wellbeing data from across the year shows a reduction in the number of behaviour incidents from the autumn to the summer term & reduced use of the Reflect & Refocus room as vulnerable pupils have responded over time to our consistent restorative approaches.

Externally provided programmes

Programme	Provider
NELI	Nuffield
THEP Phonics	Tower Hamlets Education Partnership
Mastering Number	Maths Hubs
NTP	White Rose
Lexia	Lexia Learning Systems
Mercers Project	CLPE

Further information (optional)

Additional activity

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities will focus on building life skills such as confidence, resilience, and socialising. Disadvantaged pupils will be encouraged and supported to participate
- Continuing to offer support for families in relation to food poverty
- Ensuring every child has access to a device at home

Planning, implementation, and evaluation

We used evidence from multiple sources of data including assessments, engagement in class, booklooks, conversations with parents, pupils and teachers in order to identify the challenges faced by disadvantaged pupils. We also used the EEF's families of schools database to view the performance of disadvantaged pupils in schools similar to ours and contacted schools with high-performing disadvantaged pupils to learn from their approach.

We looked at a number of reports, studies and research papers about effective use of pupil premium, the impact of disadvantage on education outcomes and how to address challenges to learning presented by socio-economic disadvantage. We also looked at studies about the impact of the pandemic on disadvantaged pupils.

We used the [EEF's implementation guidance](#) to help us develop our strategy, particularly the 'explore' phase to help us diagnose specific pupil needs and work out which activities and approaches are likely to work in our school. We will continue to use it through the implementation of activities.
